

NEW SERVICE - TRANSITIONS

OPENING
SPRING 2008
NOW TAKING REFERRALS

FARNBOROUGH, HAMPSHIRE

As a provider of a range of service solutions, Consensus is focusing on providing services that can meet the very specialist needs of some individuals by providing small scale and bespoke services.

We are currently developing a small purpose built six person service close to the town centre with access to local facilities and resources.

The service will provide support to young adults with a learning and physical disability and associated complex needs in transition from residential children services.

Young adults will be accommodated in spacious, individually styled en-suite bedrooms constructed to a high specification and fitted out in accordance with the specific needs identified for each individual.

Support will be outcome focused on the development of independence and social skills. Individuals will be prepared for living in tenancies, where appropriate, and maintaining and increasing quality of life.

Our staff will be trained to the highest standard to enable individuals to live the lives that they want to.
